ceuhm3-package   *ceuhm3 HapMap phase III genotype calls for CEU subpopulation*

Description

    ceuhm3 HapMap phase III genotype calls for CEU subpopulation

Details

Package:	ceuhm3
Version:	0.0.0
Depends:	GGBase
License:	Artistic-2.0
LazyLoad:	yes
Built:	R 2.12.0; ; 2010-07-16 13:28:01 UTC; unix

There are multiple representations of HapMap Phase III genotypes in this package. First, the full data derived from HapMap are provided in `ceuhm3.sms`. Second, the samples for which March 2007 expression data was provided by Wellcome Trust GENEVAR project are coupled in the `hm3ceuSMS` data set. Finally genomic coordinates for all referenced SNP are in `hm3ceuLocs`.
